

A) As supplied

B) After recovery

222D921-963

Right angled (90°) high ratio, lipped heat-shrinkable boot

Applications

Used for mechanical protection and cable connector strain relief. Ideal for applications where only a small number of contacts are utilised, resulting in the need for a high ratio boot to match the connector to the cable diameter.

Materials available

- 3 Semi-rigid modified Polyolefin.
- 4 Flexible modified Polyolefin.
- 12 Modified Fluoro-elastomer.
- 25 Fluid resistant modified Elastomer.
- 100 Low fire hazard material.

Coatings available

- 3 & -4 /42 General purpose hot melt adhesive.
- /86 High performance hot melt adhesive.
- 25 /42 General purpose hot melt adhesive.
- /86 High performance hot melt adhesive.
- /225 Pre-coated curing adhesive.
- 100 /86 High performance hot melt adhesive.
- /180 Low fire hazard hot melt adhesive.

Ordering Information

- Standard colour: 0 = (Black).
- Size selection: To determine the size of the required moulded part, please refer to table.
- Modifications: -00 = Potting ports (Injection port as indicated above).
- Standard packaging: Moulded parts are individually packaged.
- Ordering description: Specify the product name, size, material, coating and modifications required.
- Ordering Example:** To fit a 14mm connector, using -25 material in black = **222D921-25-0**.
or using -3 material with hot melt adhesive = **222D921-3/42-0**.

Note: For a detailed description on how to construct your moulded part, please refer to the **Moulded Part Numbering Guide**. Larger sizes are also available on request, for more information please contact **IS-Rayfast**.
